	2. The Washington Post carried a front page article which stated that jet pilots in Japan had cited and chased rotating light clusters which appeared to fall in the flying saucer category. At the suggestion now a Consultant to O/SI, came up and 25X1A5a1
25X1A9a	now a Consultant to O/SI, came up and 25X1A5a1
25X1A9a	briefed and me on this article. Stated 25X1A5a that one of the members of the Panel, recently convened to discuss unidentified flying objects, had stated categorically that this was a natural phenomenon caused by the refraction of light from the planet Jupiter. The turbulence in the air layer near the ground frequently breaks the refracted light rays making them appear to be a series of flashing or rotating spots of light exactly as described by the jet pilots. The Panel has, therefore, written off this report and no further investigations will be made.
25X1A9a 25X1A9a	25X1A9a. AD/CI requested assistance from this Office to enable to interview a Soviet defector prior to departure on the 25X1A9a Leadership Project. I checked this with who learned that 25X1A9a the Agency's connection with this defector is extremely sensitive and 25X1A9a contact between him and would be most undesirable. However, will undertake to obtain for the information he is seeking. 25X1A9a 1. An "Eyes Only" cable from has indicated the need for the establishment by Commo of a sensitive indicator to be used by 25X1A9a
	the establishment by Commo of a sensitive indicator to be used by 25X1A9a for those cables which should have dissemination release to DCI, D/DCI DD/I, DD/P and AD/NE. I shall undertake to set this up.
	5. Mr. Amory called to thank us for preparing and forwarding comments on O/RR reports and asked why we returned the basic report rather than filing it here. I explained that the primary reason was that we would prefer to make inquiry of the Economic experts where an answer is needed, thus assuring the latest information. Secondly, we found that if we kept all report sent to us from all Offices, a serious storage problem would result. 25X1A9a
